Professional Summary

Software Engineer with 2.5+ years of experience building SaaS, streaming and eCommerce platforms with Node.js, Laravel and Symfony. Currently building backend systems for a video streaming platform, from video pipelines and queue workers to payments. Strong in REST API design, payment gateway integrations and performance tuning, with experience leading and mentoring junior developers.

Technical Skills

Languages: JavaScript, TypeScript, PHP, SQL
Backend: Node.js, Express.js, NestJS, Laravel, Symfony, PHP
Frontend: React, Next.js, Vue.js, Livewire, Blade
Databases & ORM: MongoDB, MySQL, PostgreSQL, Mongoose, Prisma, Eloquent, Doctrine
APIs & Payments: Mux Video API, HLS Streaming, Vonage API, Webhooks, Stripe, Braintree, PayPal
Queues & Caching: Redis, BullMQ, RabbitMQ, WebSockets, Event Driven Architecture
DevOps & Tools: Docker, GitLab CI/CD, Git, VPS, cPanel

Work Experience

Software Engineer, Buggcy Jul 2026 – Present

- Building **FilmLauncher** (pre launch), a **MERN stack** video streaming and crowdfunding platform for indie films.
- Integrated the **Mux Video API** for uploads, encoding, **HLS adaptive streaming** and signed playback, with **webhooks** syncing asset states to MongoDB.
- Built **BullMQ** workers on **Redis** for video processing and notifications, and used **RabbitMQ** for event driven messaging between services.
- Optimized streaming APIs and MongoDB queries using **indexes, aggregation pipelines and Redis caching**.
- Built **payment flows** for crowdfunding contributions and paid content with webhook verification.

Software Engineer, AlphaSoft360 Mar 2025 – Jul 2026

- Contributed to **Gempacked**, a wholesale eCommerce platform with **7K+ users** and **40K+ products**.
- Built order flows for **online, POS and in house** sales and optimized queries across the catalog.
- Integrated **Braintree** (PayPal, Google Pay, Apple Pay, Venmo) with **partial capture** and over capture support.
- Developed **RESTful APIs** in Symfony for **Next.js** frontends and integrated the **Zebra Printer API**.
- Migrated large legacy datasets to a new schema using optimized **SQL views** and **Symfony CLI**.
- Customized **Laravel** and **OpenCart** stores with **Stripe** and **PayPal**, and implemented **GitLab CI/CD** pipelines.
- Led and mentored **4 to 5 junior developers**, assigning tasks, reviewing code and guiding feature delivery.

Laravel Developer (Part Time, Remote), HiddenLogics Apr 2024 – Apr 2026

- Contributed to **RoundHere**, a live **location based scheduling platform** with active users and events.
- Integrated **Vonage** communication APIs, **Google OAuth** and **Google Calendar** sync, and optimized **MySQL queries**.
- Built client applications with **Laravel, Livewire and Blade**, including RESTful APIs and **RBAC** dashboards.
- Integrated **Stripe** and **PayPal** payment gateways, and **Microsoft Calendar** APIs.
- Implemented real time chat with **Laravel Reverb** using Jobs, Queues, Events and Listeners.
- Deployed applications on **VPS** and **cPanel** servers and managed requirements and demos directly with clients.

Education

BS Computer Science, COMSATS University Islamabad (CGPA 3.80 / 4.00) Sep 2021 – Sep 2025
