Professional Summary

Full stack Software Engineer with 2.5+ years of experience building SaaS, streaming and eCommerce products with Node.js, React, Laravel and Symfony. Currently building a video streaming and crowdfunding platform end to end, from React interfaces to Mux video pipelines, queue workers and payments. Strong in REST API design, payment gateways and performance tuning, with experience leading and mentoring junior developers.

Technical Skills

Languages: JavaScript, TypeScript, PHP, SQL, Python
Backend: Node.js, Express.js, NestJS, Laravel, Symfony, REST APIs
Frontend: React, Next.js, Livewire, Tailwind CSS
Databases & Search: MongoDB, MySQL, PostgreSQL, Elasticsearch
Queues & Caching: Redis, BullMQ, RabbitMQ, WebSockets
Integrations: Mux Video API, Stripe, Braintree, PayPal, Vonage, OpenAI API, Webhooks
DevOps & Tools: Docker, GitLab CI/CD, Git, VPS, cPanel

Work Experience

Software Engineer, Buggcy Jul 2026 – Present

- Full stack work on **FilmLauncher**, a **MERN** streaming and crowdfunding platform, from **React** UI to APIs.
- Integrated **Mux** for uploads, **HLS streaming** and signed playback, synced to MongoDB via **webhooks**.
- Set up **BullMQ** workers on **Redis** for video processing, and **RabbitMQ** for service messaging.
- Optimized APIs and MongoDB queries with **indexes, aggregation pipelines and Redis caching**.
- Implemented **payment flows** for contributions and paid content with webhook verification.

Software Engineer, AlphaSoft360 Mar 2025 – Jul 2026

- Contributed to **Gempacked**, a **Symfony** and **Next.js** store with **7K+ users** and **40K+ products**.
- Integrated **Braintree** with PayPal, Google Pay, Apple Pay and Venmo, including **partial capture**.
- Developed order flows for **online, POS and in house** sales, and tuned catalog queries.
- Connected **Zebra** printers to print **ZPL** labels from EPC and LPN values for warehouse shipping.
- Migrated large legacy datasets to a new schema with **SQL views** and **Symfony CLI**.
- Designed Symfony **REST APIs** for Next.js, with **Elasticsearch** search and **Redis** caching.
- Led and mentored **4 to 5 junior developers** through task planning and code reviews.

Senior Laravel Developer (Part Time), HiddenLogics Apr 2024 – Apr 2026

- Promoted from Laravel Developer to Senior in Oct 2025; owned client projects from requirements to deployment.
- Contributed to **RoundHere**, a live scheduling platform, with **Vonage** APIs, **Google OAuth** and **Calendar** sync.
- Built **RBAC** admin dashboards and **Stripe** and **PayPal** checkout with **Laravel, Livewire and Blade**.
- Added real time chat with **Laravel Reverb** using Queues, Events and Listeners.
- Deployed to **VPS** and **cPanel**, ran code reviews and demoed modules to clients.

Projects

Cart Abandonment Prediction (Final Year Project) Python, Machine Learning

- Analyzed shopping session data and built a model to predict which sessions end without a purchase.

Personal Portfolio React, TypeScript, Tailwind CSS

- Content in one data file, design tokens for light and dark themes, and SEO with JSON LD structured data.

Education & Certifications

BS Computer Science, COMSATS University Islamabad (CGPA 3.80 / 4.00) Aug 2021 – Sep 2025
DAE Computer Information Technology, GCT Kamalia (87%) Jan 2018 – Jun 2021
Certification: Microsoft Certified: Azure AI Fundamentals
